CAREER SUMMARY

Results-driven Full Stack Developer with hands-on experience in building scalable web applications and integrating real-time systems. Skilled in modern JavaScript frameworks (React.js, Next.js), WebSockets, and robust backend architectures. Proven track record of developing production-ready solutions and optimizing user engagement during multiple tech internships.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Python (Basic)

Backend & Databases: Node.js, Express.js, MongoDB, Supabase, Django, MySQL, WebSockets

Tools & UI: TailwindCSS, Git, GitHub, Postman, API Integration, JSON Data Handling

Soft Skills: Problem Solving, Team Collaboration, Adaptability & Quick Learning

INTERNSHIP EXPERIENCE

FULL STACK DEVELOPER INTERN | LABMENTIX | REMOTE

SEP 2025 - MARCH 2026

- Developed **3 full-stack web applications** using React.js, Node.js, and MongoDB, reducing backend API response times by **25%**.
- Designed and integrated **15+ RESTful APIs**, establishing seamless, secure communication and reducing data latency by **18%** between frontend and backend systems.
- Integrated **4 third-party APIs** and automated internal workflows, saving **10+ hours** of processing with AI-driven automation systems.

WEB DEVELOPER INTERN | BHARAT ECONOMIC FORUM | REMOTE

JUL 2025 - SEP 2025

- Implemented **5+ responsive UI components** using React and Tailwind CSS, leading to a **15% increase** in user engagement and retention.
- Identified, debugged, and resolved over **20+ critical front-end bugs** and performance bottlenecks, enhancing application stability by **30%**.
- Collaborated with the design team to translate **12+ complex Figma mockups** into pixel-perfect, high-performance production code

WEB DEVELOPER INTERN | CODEC TECHNOLOGIES | REMOTE

MAY 2025 - JULY 2025

- Developed a secure user authentication interface using React.js and Redux, reducing login session vulnerabilities and handling state for **1,000+ concurrent users**.
- Contributed to shipping **2 major feature modules** in a full-stack web application within a fast-paced, **2-week sprint** agile environment.

PROJECTS

CureAsap – Real-Time Emergency Rescue System

- Tech Stack:** React.js, Supabase, WebSockets, TailwindCSS, Geolocation API
- Engineered a real-time emergency dashboard that broadcasts rescue requests to nearby hospitals within a **5 km radius** using geo-fencing.
- Implemented **WebSockets** for live location tracking, achieving sub-second (**< 500 ms**) data between citizens, drivers, and hospitals.
- Designed a fully functional hospital dashboard managing **4 core sub-systems**: real-time bed inventory, automated emergency records, driver assignment, and **10-second video clip** verification.

Blinkit Clone – Quick-Commerce Platform

- Tech Stack:** React.js, TailwindCSS, Redux Toolkit, Node.js, REST APIs, MongoDB
- Built a fully responsive quick-commerce website, maintaining a consistent UI across **3+ device breakpoints** (Mobile, Tablet, Desktop).
- Optimized a complex, centralized shopping cart system capable of managing state for **100+ items** smoothly with zero rendering lag.
- Developed optimized REST APIs to handle a database of **500+ products** across **10+ distinct categories** with efficient client-side filtering.

Portfolio – Interactive UI

- Tech Stack:** React.js, TailwindCSS, Framer Motion, Vercel
- Designed and deployed a high-performance personal portfolio website, utilizing advanced CSS and background animations.
- Optimized web performance assets and code-splitting, achieving a **95+ Performance Score** on Google Lighthouse and reducing initial page load time to **< 1.2 Seconds**.

EDUCATION

Bachelor's of Computer Application

2023 – 2026

Dr. Bhimrao Ambedkar University – Agra, UP

CERTIFICATES AND ACHIEVEMENTS

- Web Development Bootcamp** | Hitesh Choudhary via Udemy (2025)
- Mastering Generative AI and ChatGPT** | GeeksforGeeks (2025)
- Python Development** | Udemy (2025)
- Gold Medalist, University Debate Competition on AI** | University Computer Centre (2024)
- Dual Letters of Recommendation for Exceptional Performance** | Labmentix & Codec Technologies
